Prognostic value of persistent Q waves in Q-waves and T-waves: a test of the hypothesis. Persistent Q waves in Q-waves and T-waves (PQW in QT), a newly recognized finding, may be related to myocardial necrosis, although the cause is unknown. We hypothesized that PQW in QT is a marker of myocardial

---

necrosis and a risk factor for future events. We performed a prospective, longitudinal, observational study of PQW in QT on the anterior and inferoseptal surfaces in patients with and without heart disease. We observed 1829 consecutive patients with symptoms of chest discomfort, and studied them for an average of 34 +/- 19 months. Patients with PQW in QT were compared with

---

patients without PQW in QT, matched for age, sex, and severity of ischemia. Thirty-eight (2%) of the patients developed ventricular arrhythmias. Of these, 21 patients (55%) developed PQW in QT on one or more electrocardiographic leads. Compared with patients without PQW in QT, patients with PQW in QT had more angina at baseline (P a1d647c40b

easy Winning Tennessee: James  
and Paul Cruce Wednesday,  
September 6, 2012 Tennessee  
residents James and Paul Cruce,  
both 38, surprised their  
relatives by entering the  
Tennessee Christmas Tree  
Lottery Sweepstakes with a  
smart spending strategy. Their  
combined ticket, placed at

---

Sam's Club in Knoxville, was the first in the state to be picked up. In fact, the two placed their winning ticket as a joint ticket. "I won \$7.6 million, and Paul won \$2.8 million," explained James. "It really was a great pleasure winning the Tennessee Christmas Tree Lottery." "We had not planned on this, but we are very happy to have made a lucky entry. We wanted to give

---

a little back,” said Paul, a minor league baseball player. “When we purchased our ticket, we had no idea we were going to be so lucky,” James continued. “We just used our savings to purchase the ticket.” “We have always wanted to win this lottery, but were hoping we would win \$20 million and actually got a little ahead of ourselves,” said Paul. The two are from Knoxville, Tennessee,

---

and have no plans of traveling out of state to visit family and friends. They decided they would use their winnings to support good causes in the Tennessee area. “I grew up in Bristol, Tennessee, and I am going to use my winnings to get an education,” said James. “I am also going to help support a local theater in Bristol. I plan to use my winnings to pay for classes and rent for students

---

and a local theater in my hometown.” “I grew up in Bristol and have lived there for almost 30 years,” Paul said. “When I was 18 years old I was part of a group of 15 friends that pooled our money and bought a ticket in the lottery. We won
