Autos are usually shipped from the factory ready for customer assembly, or they may be flat packed or kit-built. If they have been suitably fitted to their top plates they may be protected by a tarpaulin,...

The program has the following features: 1. The program supports multiple machines and multiple projects at a time. 2. It can create project folders to organize the files in a project. 3. It can export it to a Word.csv file and a PDF file. 4. It has..Curved scissors for use in curved scissors assemblies are commercially available. However, many times the weight distribution of the scissors assembly can be uneven with an inherent danger of tip damage. A scissors assembly with proper weight distribution can provide better and safer cutting. It is in view of the above that the present invention was conceived and one of its purposes is to provide a mechanism that improves the weight distribution of scissors assemblies. It is another object of the present invention to provide a method for producing a curved scissors assembly that is simple to manufacture and provides a secure fit, yet can be easily inserted into and removed from the support base. An additional object of the invention is to provide a curved scissors assembly that is removable from a support base without damaging either the scissors assembly or support base. It is another object of the invention to provide a curved scissors assembly that is durable and economical to manufacture and provide for an improved cutting surface. The preferred embodiment of the present invention can be characterized as a scissors assembly comprised of a scissors blade with an opening, a scissors blade holder comprised of a handle and a blade stabilizer with a cutout therein, a scissors blade stabilizer pin inserted into the opening of the scissors blade and extending through the cutout of the blade stabilizer, a scissors stabilizer pin inserted into the handle and adapted to receive the blade stabilizer pin, a spring compressing the stabilizer pin within

the handle, and a stop which prevents the spring from collapsing to allow removal of the scissors assembly from the support base. The method for making the present invention can be characterized as producing a scissors assembly comprised of a scissors blade, scissors blade holder comprised of a handle and a blade stabilizer with a cutout therein, a scissors blade stabilizer pin inserted into the opening of the scissors blade, a scissors blade stabilizer pin inserted into the cutout of the
